I. Purpose and Overview

Creativity is a driving force in the 21st century global economy, with the fastest growing jobs and emerging industries relying on the ability of workers to think unconventionally and use their imaginations. Experience with and knowledge of the arts are essential components of the P-8 curriculum in the 21st century. As we work to transform public education to meet the needs of a changing world and the 21st century workforce, capitalizing on the unique ability of the arts to unleash creativity and innovation in our students is critical for success.

II. Mission

Empowering students to develop creative and critical thinking, social-emotional competencies, and intellectual and expressive abilities will allow them to become active, contributing members of a global society.

III. Vision

All students will have equitable access to a quality arts education that leads to artistic literacy and fluency as a mechanism for:

- Performing, presenting or producing, as artistically literate individuals, by expressing and realizing creative ideas and implementing essential technical skills and cognitive abilities significant to many aspects of life and work in the 21st century;
- Responding to artistic ideas and work with personal meaning and cognizance of the ability of the arts to address universal themes, including climate change;
- Creating new artistic work reflective of a variety of ethnic, racial, and cultural perspectives; and
- Connecting and evaluating how the arts convey meaning through all arts and non-arts disciplines and contexts of our global society.

IV. Assessment

Assessment is an essential element of effective instruction and is an ongoing process. Its primary purpose is to provide precise and meaningful data regarding student achievement of intended learning targets. Evidence of growth can be demonstrated in multiple ways throughout each unit. A variety of assessment formats have been developed, and current academic research is always at the forefront when assessing our students. Assessments include but are not limited to teacher-made tests and quizzes, observations, performance tasks, and rubrics. [Accommodations and modifications](#) are available for those students who demonstrate a need and can be located on the curriculum page of the district website.
