Results Announcement From Energy Efficiency Coordinator to ALL STAFF

3RD-QUARTER YEAR 3 ENERGY-SAVING PROGRESS

Throughout our district we have been working to carry out the energy efficiency strategies recommended as part of the SEE Program. To monitor our progress, utility bill data is tracked and reported quarterly for each facility. Utility tracking allows us to monitor energy use, identify opportunities and adjust our approach as we move forward. District-wide, we have reduced our energy use by 22% over the summer from June through August 2015 compared to the baseline year. Holland Brook School contributed significantly to our savings for the quarter. Look at the chart below to see how your facility is doing.

ENERGY SAVINGS PROGRESS SUMMARY REPORT Client: Readington Township School District

Building	Rank	% Change Electric	% Change Nat Gas	% Change Total Energy (Btu)	%Change Electric Demand	Avoided Cost
Holland Brook School	1	-18%	-34%	-26%	-2%	\$12,274
Whitehouse School	2	-27%	-25%	-26%	-11%	\$5,427
Three Bridges School	3	-22%	-37%	-23%	-25%	\$3,664
Readington Middle School	4	-6%	28%	-3%	-17%	\$2,641
Grand Total		-18%	-31%	-22%	-12%	\$24,006

This report highlights our district's energy saving results and avoided energy costs for the current period compared to the same period in the baseline year.

- A negative % change = a reduction in energy use and a positive % change = an increase in energy use.
- The % Change Total Energy column combines the electric and natural gas/inventoried fuel results by converting them to the common reporting unit of British Thermal Units (Btu) for a measurement of total energy change.
- Electric Demand is a measurement of the peak electric usage over the course of a utility billing cycle and is billed as a separate component in most commercial electric bills.
- Avoided Cost is a calculation of energy dollars that would have been spent had energy not been saved.

Congratulations on your progress and thank you for your commitment to saving energy!
