## I. PURPOSE AND OVERVIEW

The Readington School District middle school literacy program provides a balanced instructional approach which includes study of authentic and rich literature, and experience and practice in effective writing traits within a workshop approach. By the time our students are in eighth grade, they are able to handle independently difficult texts. Students will focus on reading texts in the 6-8 grade band level (70 percent) independently as well as sustained practice with texts in the 9-10 grade band level as “stretch” texts (30 percent), which will require scaffolding by teachers. Students will read a wide variety of genres; narratives, dramas, poetry, and informational text. At this grade level, students will read subgenres of adventure stories, biographies, memoirs, historical fiction, mysteries, folktales, legends, fables, tall tales, myths, fantasy, science fiction, realistic fiction, and graphic novels. Students will be exposed to dramas at this level that include one-act and multi-act plays both as text and as film. Poetry in the form of narrative poems, lyrical poems, free verse, odes, ballads, and epics will be read. At this level, students will read expository as well as argument in the form of essays, opinion pieces as well as other documents and digital media sources on a range of topics.

In writer's workshop, students focus on specific text types: narrative, informative and explanatory text, and argument. In the study of vocabulary, students focus both on understanding words and their nuances and on acquiring new words through conversation and reading and by being taught them directly. Students will grow to understand the proper meanings of words, with the means (context, word analysis, and so on) so that they can select words based on the situation. Our curriculum is designed to be responsive to the developmental stages. Our differentiated workshop approach allows students to be engaged with reading and writing experiences appropriate to their point in development, and our teachers assess students at regular intervals to inform their instructional decisions. Instruction focuses on assisting students to build independence as readers, writers, speakers, listeners, and language users. Students will build a base of knowledge across a wide range of subject matter by engaging with words of quality and substance. They will respond to the varying demands of audience, task, purpose, and discipline.

## II. COMPONENTS OF BALANCED LITERACY

The components of a successful balanced literacy program in the middle school setting include the following:

- Reading Workshop
- Writing Workshop
- Word Study/Vocabulary Instruction

### Reading Workshop: (Approximately 40 minutes daily)

The reading workshop is one component of a balanced literacy program. The reading workshop is comprised of four parts; the mini-lesson (no longer than 15 minutes), independent reading time with conferring, a mid-workshop teaching point, and finally a teaching share, partnership, or book club discussions.

A suggested schedule for an 80 block of literacy; 40 minutes in Reader's Workshop is as follows:

Monday	Tuesday	Wednesday	Thursday	Friday
Read-Aloud and Accountable Talk (about 20 minutes)	Mini-lesson (about 10 min)	Read-Aloud and Accountable Talk (about 20 min)	Mini-lesson (about 10 min)	Independent Reading (about 45 min; 10 minute mini lesson and 35 minutes reading)
Independent Reading (about 25 minutes)	Independent Reading (about 30 minutes)	Independent	Independent Reading (about 30 min)	Small-Group Work (about 10 minutes)

	Share and/or Partner Talk (about 5 min)	Reading (about 25 min)	Share and/or Partner Talk (about 5 min)	
--	---	---------------------------	---	--

## Writing Workshop: (Approximately 40 minutes daily)

Just like reading workshop, the writing workshop is comprised of 4 parts. It begins with a mini-lesson (no longer than 15 minutes) and is followed by independent writing within a specific genre of writing. During this time, students write about self-selected topics as the teacher conferences or pulls together small groups of writers who need the same type of support. The teacher will stop conferencing time for a mid-workshop teaching point. At the end of the writing workshop, there is a teaching share led by the teacher, which often sets up partnership sharing.

## Vocabulary/Word Study:

Vocabulary instruction is part of a balanced literacy program where vocabulary is focused on and specifically taught. The language arts curriculum in 8<sup>th</sup> grade encourages the appreciation and curiosity for words and their meanings, as well as direct instruction to help students learn essential academic vocabulary terms used throughout the units of study. Vocabulary instruction is a component for each grade and every level of reader and writer. In middle school, this instruction can be limited to 15-20 minutes. Students continue to make use of a range of strategies to determine and clarify the meaning of unknown and multiple-meaning words. The repertoire includes considering the word's use in a broader context that includes the content of the paragraph in which the word appears and the overarching structure of the text. Students will develop their abilities to interpret a variety of figurative language found in what they read, verify their inferences with word meanings, and make distinction among words based on connotation. Students will acquire new words through interactive language use, including informal talk, discussion, and responding to text as well as being taught words directly. It is important for word study and vocabulary development to transfer into students' independent reading and writing. To do this, the teacher coaches students to draw on what they have learned during word study as they read or write on their own.

During grade 8, teaching and instruction focuses on word meaning, word structure, and word-solving actions.

- Student/teacher conferences
- Reading logs
- Reading pace and stamina
- Contributions to book clubs
- Teachers College Reading Level Assessment conducted at least three times a year for students that are below benchmark at the beginning of 8<sup>th</sup> grade. A student that is on reading benchmark for comprehension, pace, and accuracy at the beginning of 8<sup>th</sup> grade does not need to have a running record in order to assess reading skills, other methods may be utilized.
