

## Proposal for the Wounded Warrior Project Math-o-Thon

Whitehouse & Three Bridges Schools propose that the students participate in a Math-a-thon to raise money for the Wounded Warrior Project. November is a time to learn about Veterans and what they mean for our Nation. Students will ask for pledges for each basic math fact they solve in three minutes. Pledges can range from \$0.01 for each problem, to \$5.00 or more! The Math-a-thon will take place the week of November 9<sup>th</sup> in the Computer Lab.

We will kindly be asking the parents to guide their child in collecting pledges for this important cause and experience. We will ask that there be no door-to-door solicitation and to ask only family and friends.

The mission of the Wounded Warrior Project is to honor and empower Wounded Warriors. The vision is to foster the most successful, well-adjusted generation of wounded service members in our nation's history. The purpose is to raise awareness and enlist the public's aid for the needs of injured service members. It also is to help injured service members aid and assist each other, and to provide unique, direct programs and services to meet the needs of injured service members.
